San Diego, California – Established 2011

International Air Tool Company supplies high performance pneumatic tools, diaphragm pumps, chain hoists, and MRO products to industrial facilities worldwide. Our selection of premium quality products and value-added programs are designed to maximize manufacturing output while increasing operational efficiencies.

## EXPERT APPLICATION ADVICE

We are committed to helping our clients reduce costs, boost output, and extend the usable life of their tools. From torque-controlled fastening applications in electronics plants to non-skid removal on aircraft carriers, we have the technical expertise to solve complex challenges across multiple areas of your operation.

## E-COMMERCE

With two fully functional websites offering over 166,000 products, you are sure to find what you need: Metal Working Tools, Personal Protection Equipment (PPE), Abrasives, Wire Brushes, and even Janitorial Supplies; we have the products to keep your facility running at full capacity. Conveniently create an account online, track orders, and choose from multiple payment methods to facilitate your transaction.

## INVENTORY MANAGEMENT PROGRAMS

Our custom-tailored supply chain programs are built around the specific needs of each customer. We utilize traditional **Vendor Managed Inventory** (VMI), Bar Codes, Scanners, and Point of Use Vending Systems to drive costs out of the ordering process. Dedicated customer stock is warehoused locally and delivered **Just in Time** (JIT) to reduce inventory holding costs, improve cash flow, and ensure a continuous flow of mission critical supplies.
