# **Reel Catalog** Hose, cord and cable reels

reelcraft.com

# **Reelcraft Benefits**

# Why use hose reels?

Why use hose reels? Because they make hose handling more efficient and safer. Your hoses, cables and cords will last up to five times longer. You will improve hose management, which decreases labor costs. Your chances of injuries from tripping hazards will decrease, which saves lost work time, medical bills and higher insurance. You also save the expense and time to replace expensive hoses, cables and cords that get run over by fork lifts and other vehicles.

# Five reasons why hose reels add value

- 1. Improve efficiency Hoses, cable and cords are where you want/need them
- 2. Increase safety Reduce tripping accidents and lost work time
- 3. Minimize leakages Reduce costs of air and water leakages
- 4. Reduce hose wear Hose and cord on a reel can last up to five times longer
- 5. Increase productivity No more tangled hoses improves productivity

# **OSHA says reduce your trips and falls**

"There are many situations that may cause slips, trips, and falls. The controls needed to prevent these hazards are usually obvious, but too often ignored, such as...coiling up extension cords, lines, and hoses when not in use and keeping electrical and other wires out of the way." OSHA's "Fall Prevention Tips" include, "Practice good housekeeping. Keep cords, welding leads, and air hoses out of walkways or adjacent work areas."

Source: www.osha.gov

# **Two Year Limited Warranty and Return Policy**

Reelcraft now offers a <u>two</u>-year limited warranty. All reels manufactured by Reelcraft Industries, Inc. are warranted to be free of defects due to faulty material or workmanship for 2 years (6 months for hose and light bulbs) from date of shipment when properly installed, maintained, and operated in accordance with the recommendation of Reelcraft and the manual of instructions. Normal wear and tear is not considered a defect in material or workmanship. For complete warranty information and return information please visit reelcraft.com or call Reelcraft's Customer Service Department toll-free at 1-855-634-9109.

# **Reelcraft Design Features**

# Reelcraft: Better by Design

Reelcraft's reels are better by design because of our lasting commitment to excellence. Our engineering team is well known for designing durable, high quality products. Our standard

features include durable, corrosion-resistant powder coat paint, multi-position quide arms for versatile mounting options, and heavy-duty, reinforced steel stampings for

increased strength. Our reels are permanently factory-lubricated for a long, trouble-free service life. All of these features, and many more, add up to make "The Reelcraft Difference."

#### **Reinforced Steel**

The steel-stamped quide arm is reinforced to reduce bending due to angular pull.

# **Improved Connection**

The elongated brass connector and proprietary adhesion process provide a better crimp to the hose.

#### **Stress-Free Swivel**

Our full-flow design combines the highest grade seal design with supporting bearing surfaces to ensure the longest possible life.

#### **Corrosion-Resistant**

Steel components are individually powder coated to virtually eliminate corrosion.

#### Long Service Life

Field-proven swivel assures long service life.

#### To place an order, please advise:

- 1. Model number
- 2. Account number
- 3. Shipping method

Not a Reelcraft distributor? Visit our online interactive catalog to find an online or local distributor.

#### **Kinkless Hose** High quality PVC hose is specially blended for use on reels

#### **Sealed Connection** Points

Swivel and hose inlet connections seal against leaks

#### **Adjustable Guide** Arm

Multiple guide arm positions provide versatile uses and easier field adjustment

#### **Trouble-Free** Performance

Fewer components increase the service life of the reel and improve performance

#### Long Life Drive Spring

Drive mechanism is enclosed for protection against the environment. Declutching arbor virtually eliminates possibility of spring damage due to reverse winding of reel spool.

#### **Robust Latch**

Wide profile combined with special spring assures maximum service life.

#### **Structural Strength**

Welded heavy gauge steel frame includes a robotically welded base with stiffening ribs for lighter weight, yet stronger components for ease of handling and installation.

#### Easy to Mount

Attaches to most structurally sound surfaces. Edges are curved for safety.

#### **Finish with Quality**

Reels ordered with hose and bumper

are assembled complete and ready to install.

Order bumpers separately for reels without hoses.

Additional questions? Please visit our website or

call for assistance. For more than 50 years, our

specialty is offering hose handling solutions.

Our components undergo a special fivestage cleaning process and are individually powder-coated for the highest quality paint adhesion. Excess powder is reclaimed to be environmentally friendly.

#### **Additional Considerations:**

A flexible connection between the reel and the source of supply is required to prevent possible misalignment and binding. Non-flexible connections will void the warranty. The pressure rating of inlet hose must be equal or greater than the rating of the reel.

#### \*Consult Reelcraft for recommendations if installation height is more than 16 feet.

Series 9000 and 3000 reels are shipped in the **BW** position and Series DP5000, DP7000, and 80000 is shipped in the **SW** position. All other series reels are shipped in the **TW** position. Kits are available for alternate guide arm positions. Contact Reelcraft for more information.

# **Medium Duty Spring Retractable Reels**

Air/Water - 1/4", 3/8", 1/2" I.D.

- Spool is constructed from a rugged engineered plastic
- Individually powder coated components offer maximum protection from premature corrosion
- The steel guide arm and base are stamped with ribs and gussets to ensure maximum strength and lightest possible weight
- Widened ratchet and latch pawl design greatly reduces wear and increases service life
- The industrial-grade drive spring completely containerized and permanently sealed
- Inlet hose is plumbed into the base to eliminate the risk of undue stress on the swivel
- · Guide arm adjusts to seven positions

# **Premium Duty Spring Retractable Hose Reels**

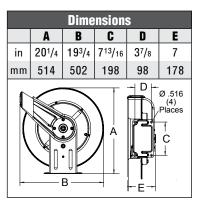

Air/Water/Oil/Grease - 1/4", 3/8", 1/2", 3/4" I.D.

- Retracts at the average human walking speed of 2 to 3 MPH
- Integral clutch creates a consistent retraction speed regardless of fluid or environmental temperatures
- Safely protects personnel and equipment

# **Premium Duty Spring Retractable Hose Reels**

Air/Water/Oil/Grease - 1/4", 3/8", 1/2", 3/4" I.D.

- Robust and ideal for the most demanding applications
- Individually powder-coated steel components provide maximum protection from premature corrosion
- Base plate, upright, and guide arm are constructed from 11 gauge steel; the spool is 16 gauge steel
- Inlet hose is plumbed into the base to eliminate the risk of stress on the swivel
- Guide arm adjusts to seven positions
- Full flow swivel combines the highest grade seal design and materials with bearing areas for maximum service life

**Pivot Bases & Swing Brackets** See page 39

# **Heavy Duty Spring Retractable Hose Reels**

Air/Water/Oil/Grease - 1/4", 3/8", 1/2" I.D.

- Compact design reels are 25% smaller than our Series 80000 reels
- Redesigned latching mechanism provides longer service life of the latch components
- · Guide arm adjusts to seven positions
- The one-piece guide roller design and stainless steel pins offer greater strength and easier serviceability

#### Meets or exceeds military vibration for **Truck Transport test**

MIL-STD-810F 500,000 mile equivalent

- Containerized drive spring offers easier handling during maintenance (size index 2 models only)
- High quality, die-cast aluminum hub and two sealed ball bearings produce a smoother spool rotation and easier operation
- Heavy duty, 7 gauge all-steel base and baked-on powder coat finish produce a rugged, corrosion-resistant reel

# Compact, Dual Pedestal Hose Reels Series DP5000 / DP7000

## Ultimate Duty Spring Retractable Hose Reels Air/Water/Oil/Grease - 1/4", 3/8", 1/2" I.D.

- Features an innovative, non-welded, interlocking base that increases the strength while utilizing fewer parts
- Independent testing to military standards has proven the reels stand up to heavy vibration, which makes them especially strong and ideal for truck-mounted applications
- Superbly engineered dual pedestal base and guide arm are structurally reinforced
- Torsion style latch spring life far exceeds that of conventional coil springs

Meets or exceeds military vibration for Truck Transport test

MIL-STD-810F 500,000 mile equivalent

#### **Features**

- Superior corrosionresistance - A double adhesive gasket seals the spring case.
- **Ease of operation** The latch pawl is mounted on the guide arm to prevent latch out at full extension.

Visit **reelcraft.com/catalog** for complete product specifications, parts, and accessories.

Prop 65: A WARNING: Cancer and Reproductive Harm www.P65Warnings.ca.gov.

# **Ultimate Duty Spring Retractable Reels**

Air/Water/Oil - 3/4", 1", 11/2" I.D.

- Ideal for service trucks, permanent service, or plant work areas
- Substantial base frame full width frame has the greatest amount of mounting area and overall strength of reels within its class
- Latch and ratchet are made of heavy duty cast aluminum to limit the opportunity for premature wear

MADE IN

USA

• Reels are shipped in the bottom wind position with right hand inlet; see Hose Guide Roller Position for other options

Models with a  $\star$  icon are our most popular models.

#### \*Series G9000 reels have an external drive spring and a removable gooseneck.

# Twin Hydraulic Hose Reels Series TH

# Twin Hose, Spring Retractable Reels

**Dual Hydraulic** - 1/4", 3/8", 1/2" I.D.

- Used for medium pressure, dual hydraulic hose applications
- Ideal for operating hydraulic cylinders, tools, and equipment
- Incorporates contemporary engineering and manufacturing techniques to give a trouble-free performance
- Declutching arbor virtually eliminates the possibility of spring damage due to reverse winding
- · Constant tension or pos-i-latch spool mechanism
- Hose specifications polyester elastomer tube with proprietary polyurethane blend, perforated black cover
- Individually powder coated components offer the maximum protection from premature corrosion
- All-steel construction and compact for applications with critical space requirement

# Potable Water, Pre-Rinse & Stainless Steel Fluid Path Reels Series 5000 / OLB

MADE IN

USA

# **Spring Retractable Potable Water/Pre-Rinse Reels**

Water - 3/8", 1/2" I.D.

• Stainless steel, full flow shaft and

water system component (does not

include NSF/ANSI 61 Certification)

• Maximum operating temperature

Suitable for use as a drinking

#### **Potable Water**

**CPVC** swivel

73 °F (23 °C)

#### **Pre-Rinse**

- Lever-operated spray valve is included
- Optional 360° rotating swivel (600248) offers 20° of angular motion
- Push-Lok<sup>®</sup>, field replaceable, hose end fittings
- Rated for hot water up to 180 °F (82 °C)

# **Stainless Steel Fluid Path Hose Reels**

REELCRAFT

1/2", 3/4", 1" I.D.

- Offers another level of protection in corrosive environments
- Stainless steel swivel and stainless steel main shaft - all components in contact with media
- Cast aluminum ratchet and latch pawl provide reliability and durability
- By design, the ratchet and latch pawl are substantially thicker than competing reels to reduce wear and increase service life
- Steel components are individually powder coated prior to assembly to maximize corrosion resistance
- Standard seals are FKM

# **Stainless Steel Hose Reels**

Air/Water/Oil - 3/8", 1/2", 3/4", 1" I.D.

- Constructed from electropolished 304L stainless steel
- Ideal for food processing, pre-rinse, wash down, chemical transfer, and industrial-solvent handling
- Stainless steel components offer the maximum protection from premature corrosion
- Suitable for coastal, offshore, and on-board ships in marine applications where the harsh environment requires the use of stainless steel
- Swivel seals include FKM O-rings (7600 OMS55 includes EPR O-rings)

**Spring Retractable Reels Note:** Standard latch parts are made from aluminum. Series 80000 and in D80000 stainless reels have an aluminum fluid path. The -S models include stainless latch parts and fluid path (OLS-S).

**Manual Crank Reels Note:** The Series HS models include aluminum hubs and bronze bushings.

#### Diesel Exhaust Fluid (DEF) / Static Discharge Reels Series UR / Series G

MADE IN

USA

# **Spring Retractable DEF Hose Reels**

1/2", 3/4" I.D.

- Designed to aid in the dispensing of Diesel Exhaust Fluid (DEF) for late model diesel engines
- These reels are an integral part of emerging DEF service stations in marinas, truck stops, and garages
- Internal fluid path parts are made from 304L grade stainless steel and feature FKM 0-rings
- Steel stampings are engineered with structural forms to give added strength and rigidity
- · Models with hose include DEF dispensing hose with stainless steel fittings and NPT threads

# **Static Discharge / Bonding Reels**

- Used to bond equipment operating in hazardous atmospheres
- Dissipates static electrical buildup, reducing the chances of sparking and the potential for explosion
- Made from industrial grade carbon steel
- Reels require little mounting space for applications where space is a critical requirement
- Easily adjust spring tension loosening two screws allows user to add or remove spring tension (except GHC3100 N)

# Spring Retractable, Hand Crank, Motor Driven Hose Reels

Water - 1/4", 3/8", 1/2" I.D.

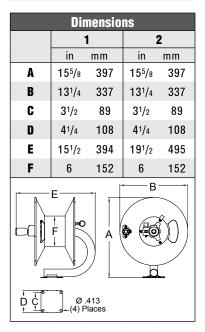

- Compact design and quality steel construction
- The high pressure water swivel is designed to handle a broad range of pressures, temperatures, and chemicals
- Ideal for agricultural, marine, equipment cleaning, and pressure washing applications
- Individually powder coated components offer maximum protection from premature corrosion
- Models without hose are rated up to 5000 PSI
- Full flow swivel combines the highest grade seal design and materials with bearing areas to ensure maximum service life
- Available in hand crank, spring driven, or electric motor driven models

### Hand Crank and Motor Driven Reels Series 30000 - Air/Water/Oil - 1/2", 3/4", 1" I.D.

- Designed for rugged applications requiring long lengths of hose and large storage capacity
- All-bolted unitized construction with no welds to fatigue, full flow swivel, and heavy gauge steel frame, spool, and drum ensure longest service life
- The T-handle tensioning device allows proper tension to be applied to the spool to eliminate the free spooling of the reel
- Vibration-proof, self-locking fasteners are ideal for industrial use or field use such as turf care or pest control
- Optional lock pin to prevent spool rotation when the reel is not in use, S600874

# **Reelcraft: Safer by Design**

#### **Adjustable Bumper Stop**

Allows any desired length of cord to be maintained outside the reel.  $\searrow$ 

#### **Corrosion-Resistant**

Steel components are individually powder coated to virtually eliminate corrosion.

#### Reelcraft offers many styles of outlets and lamps

- Single receptacle
- Twist lock
- Duplex outlet box
- Triple tap
- Quad outlet box
- Reverse plug
- Flying lead
- LED

#### Easy to Mount

**VL)**LISTED

Attaches to most structurally sound surfaces. Edges are curved for safety. **Note:** Swing brackets should be used if cords are pulled at more than 45°, see page 39.

REELCRAFT

#### 1.800.444.3134 www.reelcraft.com

#### Prop 65: A WARNING: Cancer and Reproductive Harm www.P65Warnings.ca.gov.

#### Adjustable Guide Arm

Multiple guide arm positions for versatile uses and easier field adjustment.

# Enclosed Drive Spring

Drive mechanism is enclosed for protection against the environment.

#### Long Life Drive Spring

Declutching arbor virtually eliminates possibility of spring damage due to reverse winding of reel spool.

#### / Structural Strength

Robotically welded heavy gauge steel frame.

# **Third Party Listings**

#### UL 355 - UL Standard for Safety Cord Reels

**UL Listing** means that **UL** has tested representative samples of a product and determined that the product meets specific, defined requirements. These requirements are often based on UL's published and nationally recognized Standards for Safety.

- UL tests the product and the manufacturing facility to certify that the product is safe if used as intended
- · Recognized as the standard worldwide
- Mitigates insurance liability

#### CSA - C22.2 NO. 21-95 - Cord Sets & Power Supply Cords

**CSA** International certification marks indicate that a product. process or service has been tested to a Canadian or U.S. standard and it meets the requirements of an applicable CSA standard or another recognized document used as a basis for certification.

· Similar to UL, but preferred in some instances

# Series L 3000 Cord Reels

- Ultra-compact for a wide range of bench mount or mobile applications with critical space requirements
- Easily fit within a 1 ft. x 1 ft. space
- Multiple slotted mounting holes to accommodate many configurations

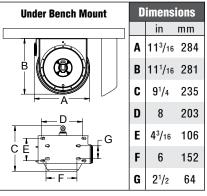

S602805 - Optional guide arm accessory; refer to online tech bulletin for installation instructions

 Durable abrasion and corrosion resistant baked-on powder coat finish

# **NEMA 4 Power Cord Reels**

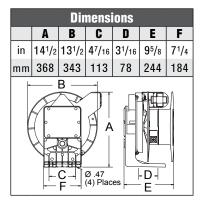

- NEMA 4 rating provides protection against water or dust, indoor and out
- · Cast aluminum construction with yellow powder coat finish
- Large, easy to access junction box

Interactive

**Reel Catalog** 

- One inch (NPT) pipe thread opening provided for conduit inlet
- Guide arm is adjustable every 5° over a 270° arc
- Containerized drive spring allows for safer, easier maintenance

Advise product to be handled, maximum temperature, and pressure fitting size when ordering. Caution: Be sure working pressure required does not exceed above ratings.

# Spring Retractable Single Line Fuel Gas Welding Hose Reels

**Series SW** - 1/4", 3/8" I.D.

#### Reel

- Hard coated, wear-resistant aluminum double-sealed full flow swivel
- Corrosion resistant baked-on powder coat

#### Hose

- Ideal for welding service meets ARPM IP-7 and CGA E-1 standards for T-grade
- Non-conductive
- **Tube:** Synthetic rubber compound compatible with all common welding fuel gases
- Reinforcement: Spiral synthetic yarn
- Cover: Red synthetic rubber with ribbed surface

#### **Features**

- Designed to improve safety in the work area with an increase in productivity and efficiency
- Full flow shaft swivels
- Double-sealed, O-rings prevent leakage
- Durable abrasion and corrosion resistant baked-on red powder-coated finish
- Reel frame, spool, and drum are fabricated of heavy gauge steel

REELCRAFT

Fuel gases commonly used in the welding, pre-heating, soldering, brazing, laboratory, heat gun, and cutting industries including, but not limited to, Acetylene, Hydrogen, Methane, Natural Gas, LP Gas, Mapp, and Propane

# Bevel Crank / Spring Retractable Twin Line Gas Welding Hose Reels

Series BA / TW - 1/4", 3/8" I.D.

(VL)

- Designed to handle various lengths of oxygen/acetylene or T-grade twin line hose
- Double sealed, special molded o-rings prevent leakage
- Swivel inlets are both permanently identified with machined grooves on the gas side to assure proper installation

LISTED NOTE: TW7400 OLPT, TW84000 OLPT, and TW86000 OLPT are listed to UL 1351

#### Dual swivel is an exclusive Reelcraft design

The aluminum dual swivel body is hard coated for wear resistance. This assures positive separation of gases due to its unique design. Available with Series TW5000, TW7000, and TWHD70000 reels.

#### Hand Crank / Spring Retractable Welding Cable Reels Series CEA / WC

- Designed to improve safety in the work area with an increase in efficiency and productivity
- Cable reels have a current path through a continuous 400 or 700 AMP, 90 V DC (maximum) rated enclosed slip ring
- Keeps work area and vehicles better organized, resulting in better space utilization
- · Stores cable when not in use, eliminating tangled, kinked welding cables
- Welding cable reels store work lead or electrode lead, up to 4/0, safely and effectively when not in use. Each lead requires a separate reel. When welding also refer to ANSI/Asc Z 49.1
- · Maintains proper bend radius of cables, providing longer cable life

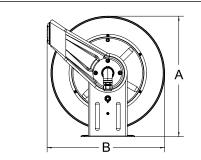

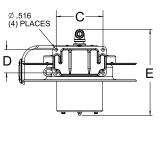

Visit **reelcraft.com/catalog** for complete product specifications, parts, and accessories.

# **Hand Crank Welding Cable Reels**

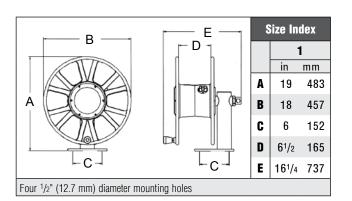

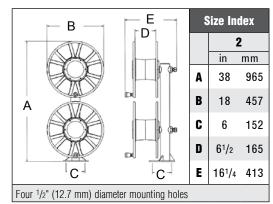

#### Up to 200' of 2/0 cable

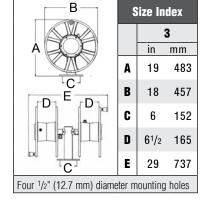

- Designed for manual winding of welding cable
- Ideal for applications where space, weight, and flexibility are key
- Offer trouble-free management of large capacities of cable
- Glass-filled nylon spools are very strong and durable while ensuring that no conductivity occurs
- A substantial welded aluminum base is used to support the weight of the spool
- Oversized bearings heavy duty shaft with tapered roller bearings offer high rigidity and spool support

Series TB / TBL

TB 05

# **Spring Retractable Tool Balancers** Series TB / TBL

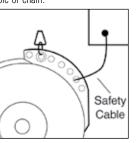

- Balances the weight of assembly tools, making them nearly weightless
- Increases productivity by keeping tools positioned for immediate use with minimal operator motion
- Reduces tool damage by preventing tools from being accidentally dropped
- Reduces operator fatigue and improves safety and ergonomic

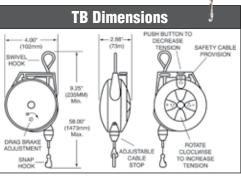

"Cable lengths listed are active or working cable. Maximum temperature 150 °F (65 °C).

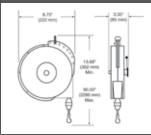

Strongly recommended, secondary steel cable or steel link chain. Prevents balancer from accidental fall. Balancers have extra holes for cable or chain.

Overhang	g Cable (not included)

**Caution:** Be sure working pressure required does not exceed above ratings. Misapplication can result in serious operator injury. **Note:** Advise product to be handled, maximum temperature and pressure fitting size or sizes when ordering.

#### **Rewind Motors**

Part No.	Specification								
Electric Mot	ors								
S260409	Reversible type, 12 V DC 1/3 HP								
Air Motors	Air Motors								
260428	4 AM delivers up to 11/2 HP, 1/4" NPTF (F) inlet								

#### **Additional Accessories**

Part No.	Specification	Use with Motor							
<b>Circuit Brea</b>	aker								
S260422	40 AMP, manual reset button must be pressed firmly to reset	S260409 260450							
Starting Solenoid									
S260426	12 V DC for activation of motor	S260409 S260583							
370018	24 V DC for activation of motor	260450 S260626							
Mounting B	racket								
260532	Combination for circuit breaker, solenoid and starting switch	40							
Chain Shrouds									
S600518	Optional chain shroud for Series 30000 and Series 1200 reels.								

#### **Operating Switches**

Specification		Use with Motor				
y Switches						
12/24 V DC, up to 1/3 HP, breaker and relay		S260409				
600811 switch with bracket, 12/24 V DC	S260409					
12/24 V DC, up to 2/3 HP		S260626				
Momentary contact with rubber cap, 12/24 V DC, non-explosion proof	er cap, 12/24 V DC, 🥼 🦓 💦					
ntrols						
12/24 V DC		Any DC motor				
y Switches with Speed Cont	rol					
115/230 V AC, 10 AMP fuse, adjustable speed control	X	S260430

These four-way roller guide assemblies are for use with reels on cabinet door openings and for similar locations where sharp edges may cut or damage the hose. The four-way design permits pulling or retracting hose at any angle. Model S270109 has nylon rollers mounted on an 11 gauge steel frame with																	
pre-drilled mounting holes.					Note: A hose bumper should be used with the four-way roller hose guide assemblies to prevent damage to rollers and nozzles.												

#### **Pivot Bases** Not intended for mobile applications.
